

Blood Donation for Research Study at
Texas Tech University Health Sciences Center

Healthy volunteers needed for blood study:

Are you a healthy individual?

Do you weigh > 110 pounds and are not pregnant?

Do you have 5-10 minutes to spare to participate in a research study?

Dr. Tijani is conducting a research study to measure the magnetic behavior of blood.

If you agree to be in this study, you will be asked to go to the Clinical Research
