

The Office of Global Health

Presents

THE GLOBAL HEALTH LECTURE SERIES

:

Old Lubbock, Lubbock inside of Loop 89, is trapped in decline despite having excellent connectivity and resilient infrastructure based on a simple, but elegant, grid system. The reason it is declining is not because of inherent economic flaws, but that Lubbock's policy orientation is currently shaped to cause its descent." - Dr. Nick Bergfeld

Join the Office of Global Health as we invite Dr. Bergfeld and panelists from Lubbock Compact to discuss the Lubbock Disparity report v.3.0.

When: 12p to 1p
May 6 2021

Where: Zoom (register below)
