, kacy.montgomery@ttuhsc.edu

This elective course is designed to educate students on the basic aspects of providing care to Lesbian, Gay, Bisexual, and Transgender (LGBT) individuals. These aspects include awareness of the social and behavioral determinants of health that are unique to LGBT individuals, how to use inclusive language during patient interactions, and being informed of the health risks/treatment options associated with this marginalized patient population. This course follows the Fenway Guide to LGBT Health and aims to cultivate clinical skills and competencies for LGBT-centered healthcare, as

The elective will be structured around six (6) didactic lectures over the entire 2024 – 2025 school year and one
