

Respect for Others

- 1) Demonstrate respectful behavior in all class and group activities
- 2) Show respect and care for others
- 3) Model empathic behaviors in interactions with patients, families, caregivers, and other healthcare professionals related to provider caregiver activities
- 4) Reserve judgment of patients and others regardless of own personal moral, ethical, social, religious, or other beliefs or background.
- 5) Acknowledge and respect that colleagues and other healthcare professionals may differ in beliefs and values
- 6) Collaborate as an effective, efficient, and accountable team member
- 7) Demonstrate the ability to appropriately work with people
- 8) Allow the class to be conducted seamlessly and stop only for immediate questions and/or clarifications that are pursuant to class material or an emergency
